

# OTSEGO

— PUBLIC SCHOOLS —

*“Otsego schools not only encouraged me but they had the tools to inspire me to pursue a career in the sciences. My love of learning and problem solving began in high school and my teachers responded to my enthusiasm by finding ways to continue to challenge me. The support and encouragement from Otsego schools helped me build the confidence I needed to get where I am today.”*

Autumn Haagsma  
Research Geophysicist  
Columbus, OH  
OHS '06

Autumn is in the Energy group and primarily focuses on CO<sub>2</sub> storage in the Midwest at Battelle Memorial Institute in Columbus, Ohio. She is pictured above at one of her research sites.
